INTRODUCTION TO SPECIAL ISSUE
Genome in motion: Mapping the nucleus in health
DAVID L. SPECTOR, ROBERT D. GOLDMAN, ANNEMARIE POLLARD | 15 JUL 2026

BIOMEDICINE AND LIFE SCIENCES
HiC2Self: Self-supervised denoising for bulk and single-cell Hi-C contact maps
JIN WANG, JIANWEI ZHENG, JIANYANG HU | 15 JUL 2026
HiC2Self is a versatile self-supervised deep learning tool for denoising bulk, pseudobulk, and single-cell Hi-C contact maps.
ABSTRACT »

Single-cell analysis of the epigenome and 3D chromatin architecture in the human retina
CHI-HUA CHEN, YUHONG FANG, XIUJUAN LI, SHENGLONG ZHAI, BIANXI ZHENG, JIE JIANG, PENGFEI WU, SHUYUAN ZHANG, LIN WANG, YIN LI, ZHONGHAN ... | 15 JUL 2026 | 0 citations | 0 views | 0 downloads
A single-cell atlas provides a resource for studying gene regulatory programs of human retina cell types and cellular diseases.
ABSTRACT »

SPECIAL ISSUE
Genome in motion: Mapping the nucleus in health
DAVID L. SPECTOR, ROBERT D. GOLDMAN, ANNEMARIE POLLARD | 15 JUL 2026

Single-cell and spatial multiomics of the epigenome and 3D genome organization in the human retina
CHI-HUA CHEN, YUHONG FANG, XIUJUAN LI, SHENGLONG ZHAI, BIANXI ZHENG, JIE JIANG, PENGFEI WU, SHUYUAN ZHANG, LIN WANG, YIN LI, ZHONGHAN ... | 15 JUL 2026 | 0 citations | 0 views | 0 downloads
A single-cell atlas provides a resource for studying gene regulatory programs of human retina cell types and cellular diseases.
ABSTRACT »

Single-cell chromatin state transitions during epigenetic memory formation
DANIEL LUCIANO, JAMIE L. MARSHALL, ANNA-MARIA STEININGER, ANNA-MARIA ZUEGER, ANNA-MARIA ZUEGER, ANNA-MARIA ... | 15 JUL 2026 | 0 citations | 0 views | 0 downloads
Single-cell and Hi-C analysis comprehensively profiles the percentage of cells with bipolar chromatin states of gene clustering.
ABSTRACT »

THIS WEEK'S PODCAST

15 JUL 2026 | ALLISON CHAMPION, ALEXANDRA NEWMAN, ANDREW ... | 0 COMMENTS
Death is a game-ending trait, and insect larvae surviving in deep waters
Fish Tetrapodism | 00:00 / 1:00:00 | SPEED | VOLUME
Fish Tetrapodism | Transcript

FOCUS
You are when you eat: How food synchronizes liver clocks
ST. SACHIN, MITHALI A. LOKHE | 15 JUL 2026
ABSTRACT »

RELATED RESEARCH ARTICLE
mTOR signaling contributes to system-driven rhythmic gene expression in mouse liver
SUCHANDA GANGAMURUGAVELU, SHIVANI SONI, SANJAY CHANDRA, SHIVANI SONI, SHIVANI SONI, SHIVANI ... | 15 JUL 2026

HEALTH
Ancient genomes from Lukabi reveal 2850-year-old adventure between Tibetans and South Asians
DI WU, SHUYUAN WANG, JIANCHAO ZHANG, YONGSHENG ZHANG, YONGSHENG ZHANG, YONGSHENG ZHANG, YONGSHENG ZHANG, YONGSHENG ... | 15 JUL 2026
Dependent and gleaners are stored in ways that differ in composition, helping explain they have different regulatory mechanisms.
