Science

VOLUME 392 | ISSUE 6804 | 18 JUN 2026

COVER: As living fossils, lampreys, such as this Far Eastern brook lamprey (*Lethenteron reissneri*), provide an irreplaceable model for reconstructing the ancestral vertebrate brain. The first single-cell three-dimensional lamprey brain atlas reveals that the vertebrate common ancestor (~500 million years ago) already had a highly regionalized brain, and subsequent neuronal...

Britain's next research choice

BY BEN JOHNSON, HILL STONE • 18 JUN 2026 • 1217

Another red alert for American science

BY H. HOLDEN THOMP • 02 JUN 2026 • 1219

NEWS

IN DEPTH

Big Ebola outbreak puts research spotlight on little-known virus

BY KAI KUPFERSCHEIDT • 18 JUN 2026 • 1222-1223

The Bundibugyo virus only emerged twice before. Now, scientists see a chance to get to know it better

New list of political jobs at science agencies called 'weird and capricious'

BY JEFFREY MERRIS • 18 JUN 2026 • 1224-1225

NIH programs and leadership are hit hard; other science agencies are barely mentioned

El Niño is here. It may be the strongest this century

BY HANNAH ROBERTS • 18 JUN 2026 • 1228-1227

After clearing a spring forecasting hurdle, scientists see growing odds of a powerful climate event that could disrupt weather worldwide

A space telescope is falling to Earth. NASA is racing to rescue it

BY DANIEL CLIFFY • 18 JUN 2026 • 1223-1228

Vehicle will attempt a daring capture-and-boost mission to extend the life of the Swift observatory

AI finds legal loopholes, even when not asked

BY CELINA ZHAO • 18 JUN 2026 • 1228-1229

Models repeatedly discovered ways to exploit regulations, and current safeguards largely failed to stop them

Unlikely chemistry of life may have originated on the ocean floor

BY YVONNE GALLER • 18 JUN 2026 • 1230

Group offers new scenario for how cells came to rely on phosphate molecules

Russia plans deep quest for 'endless oil'

BY OLGA DOROSHCHUK • 18 JUN 2026 • 1231

Soviet-era theory touted by Putin's former campaign manager claims oil deposits can form without organic matter

FEATURE

Hour of the wolf

BY BRECKEN VOSE • 18 JUN 2026 • 1232-1237

Wolves have made a spectacular comeback in Europe. But attacks on livestock and humans have caused a heated debate about the limits of coexistence
